PROJECTS

➡ **Chique** | PHP, Laravel, MySQL, React.js

Developed an intelligent fashion assistant platform to help users discover and manage personalized outfit ideas. Key features include:

- Clothing recommendations from top fashion retailers (Amazon, Shein, etc.)
- Daily outfit inspiration tailored to weather and occasions
- Outfit comparison tool with AI stylist chat support
- Stripe subscription integration for premium access and monetization

➡ **Bimrparts** | PHP, Laravel, MySQL, React.js

Built a niche marketplace platform for buying and selling second-hand BMW car parts. Key features include:

- Role-switching system for seamless buyer/seller experience
- Stripe Connect integration for secure seller onboarding and multi-party payouts
- Admin product approval system to maintain quality and trust
- Real-time notifications and email alerts for order and account updates

➡ **Cryptax** | PHP, Laravel, MySQL, React.js,

Built a secure and intelligent cryptocurrency taxation platform for individuals and businesses to simplify tax reporting. Key features include:

- AI-powered tax assistant for generating custom reports and real-time crypto calculations
- Live Expert Chat for direct support from certified crypto tax professionals
- Stripe subscription billing for plan management and recurring payments
- Designed for accuracy, efficiency, and secure tax automation solutions

➡ **DFL Properties** | PHP, Laravel, Bootstrap, MySQL

Developed a cooperative real estate management system for managing multi-project client enrollments, payments, and financial operations. Key features include:

- Role-based access control for Accounts Head, Director, Client, and Employee with scoped dashboards
- Automated installment scheduling, due/overdue tracking, and PDF receipt generation
- Dual-entry accounting engine with Chart of Accounts, automated journal entries, and financial reports
- Director commission auto-calculation, HRM with payroll generation and CSV attendance import

➡ **Human Resource Management (HRM)** | PHP, Laravel, MySQL, Vue.js

Built a modern HRM system to efficiently manage employee records, attendance tracking, payroll processing, and performance monitoring. Key features include:

- Employee Management for centralized staff profiles and lifecycle handling
- Attendance Management with real-time tracking and leave control
- Payroll System for automated salary, deductions, and payslip generation
- KPI Metrics Dashboard to evaluate employee performance and productivity
